“We heard lots of interest in how you can capture and use motion capture data to create new interactive experiences in video games,” said Klemens Kunderatitz, Vice President of Product Development, EA. “We’re excited to bring the same technology to FIFA, where you are king. The new gameplay tech, which was first revealed last week at the Electronic Entertainment Expo, is being demoed by EA Sports including a first look at a never-before-seen match that features one of the world’s greatest strikers, Lionel Messi, who scores six goals in a match. More details will be revealed this week at the FIFA Revealed™ event in Los Angeles, California. 1. In the new content demo, download the free PlayStation App, and get a free FIFA Ultimate Team™ Club Link ID to use for free to create your dream team. You can enjoy this demo for 30 days starting today at: 2. HyperMotion Feature Capabilities: - Improved ball physics and ball physics interaction. - Accuracy and response in goal kicks. - Players move with unique speed and acceleration over short and long distances. - Ability to manipulate individual actions with new Exceed Move animations. - Aerial and on-ball movement with new Exceed Move animations. - Shooting with a flick of the foot as opposed to a twisting of the body. - New shot routines and authentic movement and reaction to goal kicks. - Timing of goal kicks is more reactive to player and ball movement, especially in tight spaces. - Improved player movement and animations with the Exceed Move animation. - Pre-determined actions that are not hyperkinetic (non-hype) moments that create better ball striking and more comfortable, more natural movements. - Trajectory of goalkeeper reactions from chest height up to over 10 meters are more unpredictable. - More responsive goalkeeper reaction system. - These features are improvements based on player feedback. - Run smoothly and naturally. - Created using a combination of player feedback and player motion capture data collected on several players (individually) in motion capture suits and connected to our motion capture studio for accurate and reliable data capture. - Because of the unique HyperMotion™ technology, we're not sharing any of

Fifa 22 Features Key:

- **“HyperMotion Technology” - Motion capture data collected from real-life players is used in the creation of a new gameplay system for FIFA, allowing players to control their club’s behaviour in a way never seen before.**
- “Club Director” - Create your own football club with the Club Director – a new in-game feature that puts the fans and players

-
- in charge of building your team.
- “Dynamic True Player Motion” - Immerse yourself in a new revolutionised version of tactical gameplay with “Dynamic True Player Motion”. With the introduction of “Dynamic True Player Motion” every player in FIFA will have unique, unscripted artificial intelligence.
 - “Dynamic Reputation” – Reputation earned between matches will be used to create a unique FIFA 22 reputation score for every player. Those attributes combined with game mechanics will determine your individual reputation score within teams and within your own games.”
 - Player Study Mode
 - FIFA 22 is the first title to feature first-person Goalkeeper movement. The new gamedata has been created to match the all-new face of goalkeeper soccer from March 2014. It is now virtually impossible to cross a ball into a goalkeeper’s six-yard box with a centimetre to spare. You can only get away with this by taking off your goalkeeper’s glove and throwing it up in the air, for example.
 - The upgraded Live Post-Match Interviews feature in FIFA 22 will allow fans to join a post-match interview session held alongside your manager or player and walk through the key moments of that match.
 - FIFA Soccer 2014 Remastered Edition brings its distinctive matchday atmosphere back this September.
 - The newly-announced Pro Battlegrounds competition, coming to Xbox One, PS4, and PC. The competition pits two teams in a test of hardcore soccer skills. To qualify, potential players will participate in Pro Battleground matches in FUT on Xbox Live.
 - Tactical Free Kicks is back for FIFA 22.
 - The Most Epic Stories showcases new and returning characters in the cinematic trailer, as well as numerous other adventure-based moments created by the new storytellers.

FIFA (simply FIFA for short) is the world's biggest soccer video game franchise, thanks to the popularity of FIFA Ultimate Team™ (FUT). Featuring the gameplay elements of FIFA Soccer and Player Creator, it includes other modes such as FUT, online, and sports challenges. The FIFA franchise has been on an upward trajectory, thanks to the explosive popularity of Ultimate Team and the recently released FUT on the Switch™.

Even so, today's announcement is big news for the series, as the studio who brought you FIFA on the Wii and PS3 is moving back to the PC, and EA is bringing over the team responsible for FIFA 15, FIFA 16 and FIFA 17 to work on the project. This is a big day for the FIFA community: countless fans have been asking for a return of the franchise to PC, and today EA is delivering what they have promised, making this PC version of FIFA Ultimate Team—FIFA Ultimate Team Classic—the perfect place to start if you've been looking for a fresh challenge. And if you're new to the series, it's a great place to start. Before we go too deep, it's important to recognize the differences between FIFA Ultimate Team and FUT. FUT is the card-based mode, and it will work differently on the Switch™ than it does on Xbox One™ or PS4™. FIFA Ultimate Team Classic (FUT Classic for short) is a mode that allows you to gain new players through the new FUT packs. These packs include a new set of players for FIFA players to unlock and deploy across their FUT team. They also come with a new code for players to use on the other platforms. FUT Packs on Xbox One™ and PS4™ function a little differently. FUT Packs are a limited time collection of

players which can be purchased in packs and deployed into your team as cards. Players in a pack receive a unique blend of attributes based on their position. In addition to that, they also come with a limited use code that allows you to put them into your team on the other platforms, and they will count towards unlocking other players. “My goal for FUT Classic is that you can enjoy the community on your PC,” said Craig Duncan, Creative Director at EA. “Just like with FUT on Xbox One™ and PS4™, FUT Classic will
