''Europa Universalis IV'', also known as simply ''Europa'' or ''EUI4'' is a grand strategy video game, first released on July 15th 2012. Developed by Red Cow Games. ''Europa'', a game where you take control of a small nation and manage your resources as you grow. ''Europa'', a game where even the smallest decision has a significant impact on the game. With expansions and updates, Europa Universalis IV is still being played today. Minimum System Requirements: Operating System: Windows XP (32bit or 64bit) Processor: Pentium III 700 MHz or better Memory: 512 MB RAM Hard Drive: 2 GB of free space Video: DirectX 9.0c Compatible video card DirectX: DX9 API Recommended System Requirements: Operating System: Windows Vista (32bit or 64bit) Processor: Athlon Dual-Core X2 CPU (2 GHz) or better Memory: 1 GB RAM Hard Drive: 2 GB of free space Video: nVidia Geforce 9600 GT or AMD HD 2600 XT DirectX: 9.0c Compatible video card For the full set of system requirements, check the release notes. Gameplay: EU4 is a historical grand-strategy game set in the early modern era. You start as a small and backward country and struggle for survival, while slowly growing and improving your economy, technology, society, and military. The game takes place on a map of the Western Hemisphere. It covers the modern-day United States, Canada, Mexico, Central America, Caribbean, and South America. Gameplay within each game session is based on a real-time turn-based system, where you can see and interact with your units, provinces, and buildings. You can also select the new units to be built, use diplomacy, manage your economy, research technologies, and engage in battle, all on top of the usual historical management tasks. This gives you a very large amount of possibilities,

making each gameplay session a distinct and memorable experience. Expansion Packs: After the initial release of the game, the game was released with a free DLC. The expansion pack ''Paradise Lost'' is the first expansion pack, releasing on May 25th 2013. In Paradise Lost, you take command of the Portugese empire in the days of the discovery of the ocean. What's new:

: Almost makes it, fails it. Twice. Oh whoops. I guess due to the truly unacceptable actions of a few folks...I have had to remove this one from the site. It is no longer the responsibility of the one shot creator to provide a follow up. I should have made that crystal clear back at the beginning...those folks can find their own damn solace... Soul Eater: In Brief: We are starting to see the depth of the loser reputation as the oldest and most experienced guys begin to accumulate the most ridiculous and awful shots... Bunko now sucks, but It's you, I'm afraid. I would rather see someone else become another Matsumura than to see you. Superfly: In Short: You suck. If it was me, I'd cast the entire DM to save. It could be done. You aren't. Fine, you can have it. If whoever you got to accept this shitfilm ever decides to make any more on it, they can call it Superfly: The Sequel and give it another title. Otherwise, it will languish in my file for eternity until that one shmuck does another one. The Terror: In Shorts: Per the site's Terms of Service, these are the briefest 1-shots on the site. They'll just be a couple lines, and most will be blurbs of a paragraph. The bulk of our 1-shots are longer. If you're only interested in a few lines, here's a quick one (looking at you, Rissa) if you want to give it a whirl. Death of Cera: In Brief: You're a wise guy and a jerk to boot. Keep doing what you're doing, but please don't cast this. Death of Cera, Continued: I don't know. What's the point? Besides, I was way too drunk to work on this one. Death of Cera, Continued: Anybody have an issue with that? My turn to suck. You don't. Death of Cera, Continued: Didn't think so. You don't. Ultimovision: I'm sure you would... if you could. Where's the rest of you? Death of Cera: Just as it appeared that the young gentleman was going to fade back into the background, look who appeared behind him! Mon Petit Fer: Multi-shot? Why not a

Hyperspace Dogfights is a sci-fi dogfighting game set in the 24th century. You command a small squad of indestructible jets in ground-based tactical dogfights. With over 30 unique items, huge array of random, procedurally-generated missions and a robust gameplay loop, Hyperspace is shaping up to be the most diverse and replayable dogfighting game ever. Build a team. Fly to space. Fight to save the galaxy. Key Features: Over 40 unique items with over 200 variations that affect a whole range of variables, like speed, weapon heat, weapons damage, max weight and more Larger than life jet variations: each jet has its own unique stats and quirks, giving you as many as 100 different game-state variables. You will never know what jet you'll receive next in a mission Procedurally generated missions: by randomly assigning you a random mission profile, Hyperspace will ensure you will never get the same mission twice Solo or Co-Op gameplay: use your friends jet to help you on your missions. You can even play together offline! Team-friendly co-op mode: play the game with up to 3 friends Quirky powerups and dogfighting mechanics: including weapon pickups, capturing flags and jet speed Friendly jets: switch freely between your own jet or one from your friends Unique dogfighting gameplay: 200+ physics-based game-state variables and 20+ unique combat techniques, including the ability to fire while in the clouds Jet sounds, sounds, sounds: you can hear your jets blow up, overheat, get weapons jammed and more, simply using the dedicated jet sounds and SFX Ammo: you can even strip your jet after a dogfight. Sell your loot or give it to your friends Extreme thrills: Hyperspace features various game-state variables that affect your performance and results, including jet speed and fuel density. Will you take to space as slow as possible or as fast as possible? Key Game Mechanics Build your squad. Fly to space. Fight to save the galaxy. Use your jet's unique abilities: weapons like the Plasma Blast Weapon, Youma Cannon, Ion Cannon, Plasma Cannon and more. Plus over 20 other weapons. Fly through the clouds, the mountains and the desert: you can even fly right into the air. Don't ever get shot down: a single hit from an enemy will take off your shield. But
